

Dr Sandro Matter

Swiss (born 1964)

Executive Vice President Products

Sandro Matter completed a professional apprenticeship at Ciba-Geigy, followed by the Swiss Federal Matura. After earning a Master's degree in organic chemistry from the Swiss Federal Institute of Technology in Zurich, he gained a PhD in materials sciences from the same institution. His business career began at Synthes-Stratec, where he was responsible for biomaterials product management and development from 1997 to 2002. He was also a co-founder of Kuros Therapeutics.

Dr Matter joined Straumann in 2002 as Head of the Biologics and Research Division and became Head of the Products Division in 2005. He was appointed to his current position at the end of 2006.
